"An outdoor space is just as important as the interior"

—West Chin

West Chin Architects & Interior Designers

KITCHEN, LIVING AREA, AND PATIO

"Warm, sensual, and sexy" is how West Chin describes his kitchen and living area, which feature loungey, low-slung furniture and a decidedly mod mood. Chin and his team also designed the "playful" patio that sits adjacent to the kitchen. "An outdoor space is just as important as the interior," he says. "Good design and comfort shouldn't stop indoors."
